

Light Oak

Oiled Oak

ROOM DIVIDER

The Room Divider from FibroTech presents a contemporary interpretation of classic 1970s-inspired room partitioning. It is designed to divide a space while adding structure and visual character.

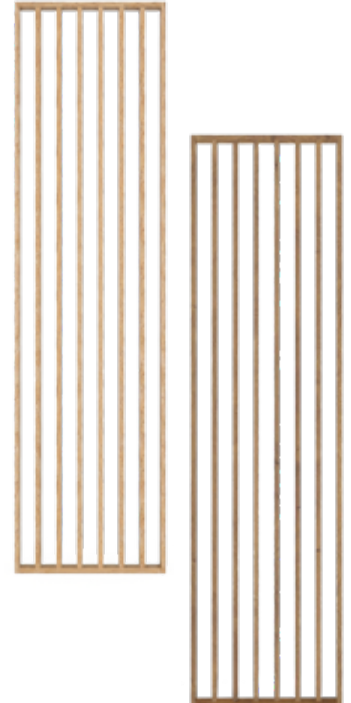

The Room Divider is manufactured from wrapped/foil-coated MDF and has the following dimensions: 65 × 580 × 2750 mm.

It is available in two colour options: the darker variant Oiled Oak and the lighter variant Light Oak.

The foil-coated surface contributes to a clean and consistent finish and enables a light and structured screening within the space. It allows for the creation of defined zones while maintaining openness and light flow.

The vertical slats provide structure and separation without fully enclosing the space, supporting an open and balanced interior expression.

The Room Divider is installed as a fixed element between the existing floor and ceiling, forming a stable and integrated solution.

DB No.	Product and color	Dimensions (metric)	Dimensions (imperial)	Qty per pallet	Weight per unit
2596491	FibroTech Room Divider - Oiled Oak	65 x 580 x 2750 mm	2.6 x 22.8 x 108.3 in	50 pcs	23 kg / 50.7 lbs
2596494	FibroTech Room Divider - Light Oak	65 x 580 x 2750 mm	2.6 x 22.8 x 108.3 in	50 pcs	23 kg / 50.7 lbs

Certifications, fire classifications, and environmental documentation depend on the specific product variant and application. Relevant certificates and declarations of performance are available upon request. Scan for the latest version: <https://fibrotech.com/en/product-information/>
